HOW IS DESIGN & CONSTRUCTION TECHNOLOGY DRIVING YOUR BUSINESS TODAY?

JOIN US FOR A TECHNOLOGY CONVERSATION!

Join us for an engaging panel conversation with local leaders as we discuss various perspectives and value outcomes for connecting technology to their business strategies.

Our panelists bring a diverse background of expertise as we explore their company value propositions and applications for technology use cases such as BIM, VDC, Digital Twins, Field Applications, Cloud Collaboration, Prefabrication, Autonomous and Semi-Autonomous devices, Artificial Intelligence, Remote Sensors, and much more!

We will also dig into the key areas of how their companies approach the people, process and technology conversations internally as they advocate for change and the challenges associated with emerging tech and evolution of business practices from traditional means.

CHRIS LINK, CDT, CM-BIM (MODERATOR)

Director of VDC Digital Content at CRB

Chris has 20 years of design, CAD/BIM and project management experience. He has developed and administered several CAD/BIM systems, including setup and standards development, staff training and development of advanced workflows. He is a Construction Document Technologist, a LEED Accredited Professional and the founder and President of the St. Louis Revit User Group (SLRUG).

Name _____

The above attended this program and qualifies for either:

- >1.5 Professional Development Hour (PDH) for Professional Engineers under Missouri statutes
- > 1.5 Learning Unit (LU) through the American Institute of Architects.

BILL CARNEY (PANELIST)

Design Technology/Principal at DLR GROUP

As DLR Group's Design Technology leader, my focus is global working with the Integrated Design Leadership to establish and execute strategies enhancing our BIM and digital design technology teams and ensuring the work delivered by our teams is through cutting edge of AEC standards and best practices.

MIKE LAWLESS, PE, FPE, LEED AP (PANELIST)

Senior Director of Innovation at IMEG

Mike is responsible for leading the strategic vision, development, implementation, and promotion of all innovation initiatives related to transformational changes in the construction industry. He focuses on gathering and vetting innovative ideas and trends from inside and outside the firm.

DYLAN BLAKE (PANELIST)

BIM Manager at Murphy

Experienced Fabrication Engineer with a demonstrated history of working in the construction industry. Skilled in AutoCAD, Plumbing, Computer-Aided Design (CAD), Project Estimation, and SolidWorks. Strong operations professional with a Bachelor of Engineering - BE focused in Mechanical Engineering from Missouri University of Science and Technology.

ALEX BELKOFER, CM-BIM (PANELIST)

Director of Virtual Design & Construction at McCarthy

As a regional leader and national collaborator at McCarthy, Alex is responsible for the overall strategy, implementation, and execution of the virtual design and construction (VDC) lifecycle process between all project stakeholders. The VDC Team promotes, trains and guides McCarthy Project Teams through VDC processes/practices over the course of a building's design and construction lifecycle.
