Cancellation notice must be made prior to this time otherwise payment is required.

Russ Signorino has been a Labor Market Analyst and is the new Program Director for the Building Union Diversity (BUD) program. His insight assesses the impact on the construction industry labor market.

Dr. Jeff Pittman, Chancellor of St. Louis Community College will make the presentation. The report reflects strong job growth by our employers but also the "coming storm" of a shortage of skilled workers. This is particularly acute for middle skill jobs which require education and training beyond high school but not a four year degree. Educators and employers must work together to address this shortage. St. Louis Community College commits to this through the alignment of our programs and curricula to the needs of our employers, one of our six strategic initiatives.

This issue touches every industry not just construction. So owners in every industry have a vested reason to come and learn about the current and future workforce status including: High-tech, bio tech, ag-tech, healthcare and manufacturing.

- Discover the 2017 report on the state of the construction work force
- Assess impact of work force availability
- Discuss strategies to align work force requirements with work force needs
