8-9 a.m. Program

LOCATION: HABITAT FOR HUMANITY & RESTORE - 3830 SOUTH GRAND ST. LOUIS MO 63118

WASHINGTON UNIVERSITY PEDESTRIAN BRIDGE

TARLTON CORPORATION

CII BEST PRACTICE: FRONT-END PLANNING

Tarlton Corporation and Washington University has been selected as the winner of the St Louis Council of Construction Consumers Best Practice for the Front-End Planning. The project involved replacement of an old, narrow pedestrian bridge over Forest Park Parkway and the Metro Link Line, with an 18-foot-wide pedestrian bridge. Front End Planning was critical to this project in order to minimize disruption of vehicular and pedestrian traffic, better coordination with jurisdictional authorities, schedule improvements and cost savings.

How was the planning effective? What are the lessons learned? What are best practices for your projects? Come learn more!

HABITAT FOR HUMANITY NEW HEADQUARTERS

S.M. WILSON

CII BEST PRACTICE: PARTNERING

S. M. Wilson and Habitat for Humanity have been selected as the winner of the St Louis Council of Construction Consumers Best Practice for Partnering. A project with many participating companies requires good communication and collaboration to execute a successful project.

As a result of utilizing CII's Best Practice of Partnering, the following metrics were attained:

- A \$3,000,000 project was completed for \$2,000,000
- 890 Volunteers donated 6,095 hours of work saving over \$149,000
- \$979,000 worth of donated services and materials were obtained
- 16 different companies participated in the project
- Reused salvaged parts for the construction project to avoid landfill disposal
