DISCUSSION & TAKEAWAYS

Join us and learn from a handful of the metro's leaders in shaping our environment and landscape. SLDC will moderate and contribute to the discussion from STL City's perspective.

Be prepared to do some networking as well and arrive early. Also, we will be engaging all attendees; you will need your phone to do so. Please follow the instructions sent at registration. This will allow us to get questions for the panel.

This will be packed with info and interactive, so come ready to network, enjoy breakfast, and engage!

Added bonus: Christner recently renovated the space next to the space we are using for this event. We hear it's fabulous and ideal for the social media pics!
