“Health & Safety Award”

Health & Safety Contractor/Subcontractor of the Year Award

The **Health & Safety Contractor/Subcontractor of the Year Award** recognizes a contractor or subcontractor that demonstrates an exceptional commitment to protecting the health, safety, and well-being of its workforce and project partners. This award honors organizations that go beyond compliance to foster a proactive, people-first safety culture across jobsites and operations.

Eligible firms may be recognized for outstanding safety performance, effective training programs, hazard prevention, and the implementation of innovative safety practices or technologies. Consideration is given to organizations that empower employees to take ownership of safety, promote accountability at all levels, and consistently integrate health and safety into daily operations and project planning.

The recipient of this award sets a standard for leadership and excellence in jobsite safety—demonstrating that a strong safety culture is fundamental to quality, productivity, and long-term success in the construction industry.

Please complete the nomination form for this award below. This Form **MUST** accompany your submission.

ENTRY DEADLINE: FRIDAY, FEBRUARY 6, 2026 @ NOON

Please provide the Awards Selection Committee with a response to the following criteria to be considered. Note, that we will determine finalists, which will be announced before the event. The winner is to be announced at the Awards Gala. Responses need to match the criteria. Provide examples and supporting information to criteria requests. All criteria are weighted, and the highest-scoring submission will be the winner. Finalists will be announced and honored.

Evaluation Criteria

Nominees will be evaluated on demonstrated excellence in the following areas:

1. Safety Performance & Results

- Strong safety record over the past 12–36 months
- Use of measurable indicators such as TRIR, DART, EMR, or other relevant metrics
- Demonstrated reduction in incidents, near misses, or safety-related risks

2. Safety Leadership & Culture

- Visible leadership commitment to health and safety at all levels of the organization
- Empowerment of employees to identify hazards, stop work when necessary, and participate in safety planning
- Evidence of a proactive, prevention-focused safety culture beyond minimum compliance

3. Training & Workforce Engagement

- Comprehensive safety training programs, orientations, and ongoing education
- Engagement of field personnel, supervisors, and management in safety initiatives
- Inclusion of subcontractors, partners, or suppliers in safety expectations and practices

4. Innovation & Best Practices

- Implementation of innovative safety practices, technologies, or processes
- Use of leading indicators, job hazard analyses, safety observations, or predictive tools
- Continuous improvement efforts that enhance jobsite health and safety

5. Health, Wellness & Risk Prevention
