

SLC3 SHOW ME AWARDS

"Innovation in Construction Technology"

The **Construction Technology Excellence Award** recognizes a contractor or subcontractor that demonstrates leadership in the effective adoption and implementation of innovative technologies that improve construction operations, safety, quality, and project delivery. This award honors organizations that move beyond trial use to successfully integrate technology into everyday workflows and jobsite practices.

Eligible firms may be recognized for the use of technologies such as construction BIM and VDC, reality capture, drones, field management platforms, automation, robotics, prefabrication and modular construction, data-driven scheduling, wearable technology, or other emerging tools that enhance productivity and coordination. Emphasis is placed on practical application, scalability, and measurable impact on project outcomes.

The recipient of this award sets a standard for how construction technology can drive efficiency, reduce risk, improve collaboration, and elevate performance across the construction industry—demonstrating that innovation is most powerful when it delivers real results in the field.

Please complete the nomination form for this award below. This Form **MUST** accompany your submission.

ENTRY DEADLINE: FRIDAY, FEBRUARY 6, 2026 @ NOON
SLC3 AEC SHOW ME AWARDS – April 8, 2026

ST. LOUIS COUNCIL OF CONSTRUCTION CONSUMERS

301 Sovereign Court | Suite 101 | Ballwin, MO 63011 | info@slc3.org | slccc.net

Please provide the Awards Selection Committee with a response to the following criteria to be considered. Note, we will determine finalists, which will be announced prior to the event. Winner to be announced at the Awards Gala. Responses need to match the criteria. Provides examples and supporting information to criteria requests. All criteria is weighted and the highest-scoring submission will be the winner. Finalists will be announced and honored.

Criteria: Nominees will be evaluated on demonstrated excellence in the following areas:

1. Proven Technology Adoption (30)

- Successful implementation of construction technologies such as BIM/VDC, reality capture, drones, field management platforms, prefabrication, robotics, automation, wearable tech, or data-driven scheduling
- Evidence that technology is actively used in daily operations or on jobsites—not limited to pilot projects
- Demonstrated scalability across multiple projects or teams

2. Impact on Jobsite Performance (15)

- Measurable improvements in productivity, efficiency, coordination, or quality
- Positive impact on schedule reliability, cost control, or constructability
- Reduction in rework, errors, or delays through technology-enabled processes

3. Integration into Workflows (15)

- Effective integration of technology into existing construction workflows and project delivery methods
- Alignment between field teams, project management, and leadership
- Use of standardized processes, templates, or best practices to ensure consistency

4. Workforce Adoption & Training (10)

- Training programs that support field and office personnel in using new technologies
- Demonstrated buy-in from crews, supervisors, and project teams
- Clear approach to change management that supports long-term adoption

5. Innovation & Continuous Improvement (10)

SLC3 AEC SHOW ME AWARDS – April 8, 2026

ST. LOUIS COUNCIL OF CONSTRUCTION CONSUMERS

301 Sovereign Court | Suite 101 | Ballwin, MO 63011 | info@slc3.org | slccc.net

- Willingness to refine processes, adopt emerging tools, or improve workflows based on lessons learned
- Use of data, feedback, or performance metrics to evaluate and improve technology use
- Demonstrated commitment to continuous improvement rather than one-time implementation

6. Safety, Risk Reduction & Compliance (10)

- Use of technology to enhance jobsite safety, hazard identification, or risk mitigation
- Integration of technology to support compliance, documentation, or reporting
- Positive impact on safety outcomes or risk management practices

7. Industry Leadership & Knowledge Sharing (10)

- Contribution to advancing construction technology adoption within the industry
- Sharing of best practices through presentations, mentoring, collaboration, or association involvement
- Demonstrated leadership that influences peers, partners, or project teams

Optional Eligibility Notes

- Open to contractors and subcontractors operating within the AEC industry
- Technology implementation must demonstrate results within the past 12–36 months
- Criteria may be scaled to reflect company size and scope of work

Evaluation:

Scoring and Evaluation Process

Weighted Criteria: We will assign weight to each criterion based on its importance to our organization.

Panel Review: A diverse panel of judges representing different industry perspectives will be used to complete impartial evaluations. Highest score will win the award. Nominees will likely be finalists.

Award nominations **MUST** be submitted by **FRIDAY, FEBRUARY 6, 2026**. Please submit your nomination form and response to info@slc3.org. For questions regarding this nomination or the event, call the SLC3 office at 636.394.6200.
